

Repository structure

Public-safe local package for code, metadata, locked outputs, figures, and release documentation.

```
cross-tissue-module-reproducibility/
|-- README.md, LICENSE, CITATION.cff, CHANGELOG.md, config.yaml
|-- repository_inventory.xlsx
|-- PUBLIC_PRIVATE_CHECKLIST.xlsx
|-- PLOS_code_availability_checklist.xlsx
|-- code_audit_report.md
|-- github_repository_audit_report.docx
|-- PLOS_data_availability_statement.docx
|-- zenodo_metadata.json
|-- environment/
| |-- R_version.txt, sessionInfo.txt, package_versions.csv
| |-- Python_version.txt, python_requirements.txt
| |-- random_seeds.txt, renv.lock [audit placeholder]
|-- scripts/
| |-- 01_data_download/ through 10_figures_tables/
|-- metadata/
| |-- GEO_dataset_registry.xlsx, sample_registry.xlsx
| |-- donor_crosswalk.xlsx, module_definitions.xlsx
| |-- probe_mapping_summary.xlsx, dataset_preprocessing_registry.xlsx
| `-- source_csv/
|-- results/
| |-- tables/
| |-- figure_source_data/
| |-- model_outputs/

|-- figures/Fig1.tiff through Fig6.tiff
`-- docs/
|-- reproducibility_protocol.pdf
|-- analysis_flowchart.pdf
|-- repository_structure.pdf
`-- audit, dependency, integrity, and design reports
```

Excluded by design

GEO RAW files, raw/processed expression matrices, local download caches, large third-party mirrors, authentication material, personal local paths, and unverified identifiers are not part of the repository.

Release-critical placeholders

GitHub URL, immutable release tag, complete renv lock, and Zenodo DOI remain REQUIRED BEFORE PUBLIC RELEASE. The current repository status is NOT READY.
